Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I currently have a trac phone instead of a monthly mobile phone because I use my phone only for emergencies. I make few calls per month generally and this will really impact me negatively. Perhaps even putting it out my price range - leaving me without the ability to dial 911 if I am being followed or a tow truck if I have an accident. There must be other ways to increase your revenue that are more fair to the consumer.

Thank you for your consideration.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Jan Bourassa
